Cameron almost doubled the field in Interscholastic League competition with 305 points. It was another proof that people in Cameron are doing things.

These kids deserve the recognition they are receiving. In both athletics and literary events, the Yoe High School entries are outshining the rest of district. That includes Belton, going 3-A next year with an increased enrollment.

101 - 101 - 101

The performance of our kids gives the adult community something to live up to.

They are surely justifying the value of putting our faith in Cameron, a city of 114 years and many, many accomplishments.

Often times, it takes outside recognition to reassure oneself that things aren't so bad after all.

Many of Cameron's ills are economic, just like small cities everywhere competing with the powerful influence of metropolitan areas.

But, and we know we are repetious, this does not mean that the biggest population means the best in everything.

101 - 101 - 101

Harvard's Conant, a former president of that famous Eastern University, recently said that an effective high school system would require a minimum of 400 students. Cameron has that.

Will Wilson, Texas attorney general, said that middle - size American cities are the ideal place to live and work. Cameron, now above a small town population level, is approaching a position to grow into that 10,000 and up class.

Green pastures grow on both sides of a fence, unless somebody's irrigating one side and withholding water rights to the other. But opportunity rains down naturally. All we have to do is meet it half way.

MALONE DOES IT AGAIN — Yoeman Steve Malone receives the T. A. Weems trophy from Rockdale School superintendent J. M. Moorman. The trophy goes each year to the high point athlete of the meet. Malone compiled 39 points by winning the broad jump and high jump events, placing second in both hurdle races and running a leg on the third place mile relay team.

School Board ToMeet

2 New Members Will Take Oath For New Terms

Two school board members will be sworn in tonight at a monthly Cameron District Board meeting at Ben Milam School.

The agenda calls for a review of names for men to serve on the board of equalization and election of teachers and auxiliary personnel.

New board member Milton J. Schiller and re - elected incumbent F. W. Vogelsang will take the oath of office to join Dr. Gus Evans, Niley J. Smith, Dr. David Shapiro, Max Howard and Dr. Sidney Richardson on the seven-member panel.

Other major items on the agenda call for electing board officers, canvassing election returns, and electing a tax collector.

Other items include review of repairs for one school bus for seven months which were $1,134.79 and $268.34 for two later months.

The board has considered a bus purchase plan of replacing some school buses which are up to 8 years old.

And the board will review reports of a Texas Education Agency accrediting team which approved the Cameron School district's accreditation in a recent review.

And the board will consider spending $125 for termite control in the tax office and west end of Yoe Gymnasium.

Improvement Job Continues In City

Public improvements and construction continued around Cameron as two buildings were abuilding and others were being remodeled.

Workers were building on Fikes Trading Post on West Fourth St. and erecting walls and roofs on the K of C Bowling Alleys this week.

And workmen were remodeling a building for Bush Construction Co. on South Crockett.

The Milam County Service Officer has opened offices in the Lippman Building on West Main St.

On US 77, the Burkes - Howard Company is installing a new window front on the north side. And remodeling work is underway for the Jane Potter Beauty Shop in the Cameron Hotel.

Adolph Matula, Cameron, is reopening a Texas Gas Corp. service station in the former Ingram's Cafe Bulding on US 77 North.

Construction work on the Kof C Bowling Alleys has been underway for about six weeks and workmen are putting on the roof of the steel wing this week.

It will house eight alleys which are to include automatic pinsetters.

Meanwhile a number of businesses and homes have been redecorated or remodeled across the city.

Repainting work has been completed on at Lippman's Men's Store, Gordon Baskin Insurance Agency, Lone Star Gas Co., Cameron Livestock Auction, among others.

And paint trim work is due to begin on the Milam County Courthouse on all exterior trim. Hughes Construction Co. won the painting contract.

Total Reaches Highest Level In Recent Years

County officials today reported excellent progress on the spring planting schedule and another 3,000-acre increase in cotton acreage.

Alva Sanders, manager of the Cameron Agriculture, Stabilization and Conservation office, told The Herald that Milam County had been allocated 3,000 additional acres for cotton planting.

This increment upped Milam County's cotton acreage total to 54,500 acres, a record total available acres since the Soil Bank was started several years ago.

The county had already received 1,500 additional acres by re-evaluation of acreage planted in recent years.

Informed observers said the additional allotment could up the county's total to a 22,000 bale crop this fall if all of the acreage is planted.

Demand for additional acreage exceeded the supply earlier this year, causing the 3,000 extra acres to be granted from acreage turned in eastern counties of Texas.

This is the first sign of a trend that put West Texas in the cotton business years ago with the advent of irrigation, when their production records showed gains that pulled allotments from cotton - producing Eastern and Central Texas.

Meanwhile, County Agent J. D. Moore reported that most of the county corn and maize crops were planted though some spotted replanting was necessary where rains had fallen heavily.

He said that cotton planting made moderate progress as most cotton growers planned to be finished with planting next week.

Chamber Directors Endorse Program

The Cameron Chamber of Commerce board of directors Friday unanimously endorsed the building program of the proposed Newton Memorial Hospital.

Dr. W. R. Newton, Cameron, addressed the group on the financial contribution made by the present Newton Memorial Hospital, including about $250,000 in hospital salaries and expenses and about $250,000 in related expenditures outside the hospital but in Cameron during a year's time.

The hospital drive is seeking $50,000 to match a $160,000 Hill-Burton federal grant and $60,000 assured in out - of - county contributions if Milam County raises the necessary local funds.

A Newton Memorial Hospital Campaign Headquarters was opened this week on South Houston, next door to the Cameron Chamber of Commerce.

18 AA District Track Meet Set For Thursday

The district 18AA Track Meet will be held today at the Yoe High School Athletic Field according to Head Coach Jim Speer.

There will be five district schools participating in the meet. Belton and the local Yoemen are predicted to battle nip and tuck for the first place position.

The meet will climax three weeks of interscholastic League activity which Cameron has in the bag. Their nearest rival, Belton, cannot take first place even if they win all track events.

The track preliminaries are scheduled to start at 9:45 and the finals at 2.

Speer has maneuvered his runners and field event participators into tight positions that will assure the Yoemen of their best performance this year.

Knights Of Pythias Endorse Program For New Hospital Plant

The Knights of Pythias Milam Lodge 125, Monday night endorsed the program to build a new Newton Memorial Hospital.

Rogers Community To Have New Dial System April 28

The community of Rogers will soon join other towns and cities with modern telephone facilities, according to Fred J. Rector of Rosebud, owner of the exchange here. Rector stated recently that the installation of the Stromberg-Carlson telephone office equipment is nearing completion, but that the installation of dial telephones and the station equipment would take about three more weeks.

The cut-over date from manual operation to dial is slated for Thursday, April 28, at 9 a. m., according to Rector. This is the third exhange for the Rosebud Telephone Company, Inc. the others being in Rosebud and Burlington.

The prefix in Rogers will be Midway 2, or MI 2. The Bell Telephone Company in Temple will handle the long distance and information calls. John LaCook will be located in Rogers as the local service man. He can be reached at MI 2-3455 or at the telephone office 2-3456.

For fire calls, dial F—I—R—E and that will get the fire department and sound the alarm.

The directory will list emergency numbers like local police, the sheriff and ambulance. This system is as modern as a telephone system can be, according to Rector, who said they have built for any amount of growth by just adding to the present equipment. Subscriber toll dialing is also built in and ready whenever the time comes for it.

Mrs. Rector is starting landscaping of the building and grounds. Bills may be payed either at the First State Bank in Rogers, or the payment can be mailed to the Rosebud Telephone Company in Rosebud.

73 Attend First Civil Defense Class In Rogers School

Civil Defense National Disaster education began in Rogers Monday night with a bang, as 73 adults attended the first full class period. The instructor from the State Department of Education in Austin, Clark Titus, said this was the second largest attended such class in Texas, Gainsville having had 77 in one class meeting there at one time.

77 had pre - registered for this course in Rogers. A few of those did not show up but a few not registered reported for the class. Four Rogers teachers are qualifying to teach civil defense courses in the future; they are J. L. Chervenka, F. G. Long, J. H. Merka, and Miss Mae Braswell. Raymond Tharp of Rogers but a teacher in the Troy schools is also qualifing for teaching the work. When a local teacher teaches civil defense courses, only 8 students are now required to have a government approved course. Several courses are expected in the future in Rogers.

The next class period for this large class was set for Tuesday night, April 12, 7:30 p. m. in the high school library.

Cameron District Catholic Women Meet In Cyclone

The Cameron District of the Austin Diocese of Catholic Women met in Cyclone Sunday, April 3 for its quarterly meeting.

New officers elected were, Pres. Mrs. W. J. Rinn, Rosebud, Vice-Pres. Mrs. Louis Ortex, Hearne Treasurer Mrs. Wm Crona, Hearne. Sec. Mrs. Tom Vorley, Bryan.

Outgoing officers are: Pres. rs. David Sharpiro, Cameron, vice - p Pres. Mrs. Josie Pestranella, Bryan, Sec. Mrs. Lawrence Jetter, Cameron, Treas. Mrs. Tony Zenmek, Bryan.

Guest speaker for the afternoon was Mrs. Maloy of Waco, Diocesan chairman for spiritual development. She spoke on some of the women mentioned in the bible. About 90 women and 3 priests attended and 8 parishes were represented. Seven ladies and Father Geiser from Cameron were present for the meeting.

15 Of Every 1000 Texans Injured In 1959 Accidents

Fifteen of every one-thousand Texans were injured in traffic accidents during 1959, the Texas Department of Public Safety reported today in the release of its annual statistical report booklet on vehicle accidents.

In presenting the 1959 "fact book" Col. Homer Garrison Jr., DPS director, said that 2453 persons died in traffic collisions in Texas during the year 1959. He said death took a holiday only one day, with Dec. 2 being the state's only motorcide free day. The state's worst tragedy of the year he said was a two car head - on collision in Hidalgo County Feb. 15 killing 10 persons which occurred not far from Alamo where the most disastrous traffic accident ever recorded took the lives of 29 persons in 1940.

The statistical report was prepared by department Statistician N. K. Woerner who kept records on more than 340-thousand accidents during the year. The traffic accident occurred at the rate of one every 92 seconds; a person was injured every 4 minutes, and a person was killed every 3 hours and 34 minutes.

In referring to the "death calendar" as one of the most interesting portions of the booklet, Garrison pointed out that Nov. 14 was the most deadly traffic day of the year with 24 persons killed in 8 fatal accidents. He also said there were 23 days when 15 or more motorcides occurred.

Motorists traveled more than 125-million miles per day in Texas last year. This rate jumped the year - long total up five percent to an all time high of 46,052,600,000 vehicle miles.

ARCHITECT'S SKETCH — Shown here is an architect's drawing of the proposed new structure for Newton Memorial Hospital in an estimated $400,000 building program. A fund of $50,000 is being sought to match a $160,000 federal grant and a $60,000 contribution from outside of the county to the non-profit hospital. The proposed structure would provide 28 beds in a modern, one-floor design. It would be built north of the present site of Newton Memorial on W. Fourth St. The present structure was started in 1942 and has 35 beds.

Rinn Participates In Football Drill At West Texas

CANYON — Ernest Rinn, a West Texas State sophomore from Cameron, is participating in the Buffaloes, spring football drills which started this week.

Rinn, a transfer from Delmar Jr. College, is one of 62 footballers to greet the Buffs' new coaching staff, headed by Joe Kerbel. New assistants in the West Texas football rebuilding program are Joe Moss, Jack Harris and Billy Willingham.

Rinn, who is majoring in pharmacy, is the son of Mr. and Mrs. W. O. Rinn, Cameron.

Dr. Newton Speaks To I. O. O. F. Lodge

Dr. W. R. Newton was guest speaker at the I. O. O. F. Hall Thursday night. The group heard Dr. Newton explain the history and organization of the non-profit Newton Memorial Hospital.

Dr. Newton pointed out that unless $50,000 was raised in the county, the hospital would not be built. This would be less than 12½ of the overall investment of the building, equipment, and grounds. The land will be contributed. He also pointed out the non-profit hospital was open for the practice of any and all doctors in this area.

Dr. Crump Endorses Hospital Program

Dr. T. E. Crump, Cameron physician, has endorsed construction of a new Newton Memorial Hospital.

He said that he practiced at both Cameron hospitals and two good hospitals were needed in the Cameron area. He said the new improvement would benefit everyone in the county.

Gene Mitchan Wins 3-Firsts; 1-Second In Go-Cart Race

Gene Mitchan, local automobile dealer won three first place trophies and one second place ribbon in go - cart competition last Sunday in Thorndale.

Driving a 6½ horsepower Fox Go-Boy won the day's feature race, trophy run, Austrilian Pursuit, and set a track record in lapping the field in 20.5 seconds. He was second in the fast car heat of the day.

This was his second try at the races. Previously he'd taken a second place ribbon. He told the Herald that a larger sproket was used on his machine this time, probably accounting for the better performance.

The trophy dash in which he won first consisted of 6 laps and the feature race of 25 laps.

Mitchan's younger brother, Martin, tried his lick with the cart without as much success. He is a high school senior and former trophy winner at Little River Dragstrip.

YHS Athletes Win

Cameron Interscholastic League participants won first place Friday with a total of 305 points. 175 points were given to winners of Literary events and 130 points for sport event participants.

Tennis Winners for Cameron were, Sr. Boys Doubles, Billy McQueen and Billy Hawkes, 3rd place Sr. Boys Singles, Jimmy Woodum, 3rd; Sr. Girls Doubles Judy Suter and Mary Alice Duncum, 1st; Sr. Girls Singles, Mary Kestenbaum, 1st; Jr. Boys Doubles Melvin Provasek and John A. Smith, Jr., 1st.; Jr. Boys Singles, Earl McGoldrick, 2nd.; Jr. Girls Doubles, Ann Bowman and LaNell Russell, 1st.; Jr. Girls Singles, Jane Matyastik, 1st.

The girls volleyball team also won first. Sr. Girls and Boys and Jr. Boys and Girls Playground Ball carried away blue ribbons for their first place wins.

Four Local Boys Participate In Academy Races

Albert Mondrik, former Yoe High graduate led a host of four Cameronites at the Little River Dragstrip recently.

Mondrik won A-stock with a 15.8 He sports a white two - door hardtime in the quarter - mile stretch. top, 1959 Chevrolet with a V' motor and standard shift.

Jesse Schroeder, also a local participant took B-stock in his 1956 Chevrolet with a 16.0 time.

Robert Glaser ranked high in the standing in his 44 Chevrolet as did Harvey Kimbrel in his 6 cylinder Chevy.

In the past weeks Cameron boys have dominated the Academy Strip as well as the one in Waco.

A number have won trophies in their classes. Other recent winners have been Billy Slavik, Cecil Arnold, and Martin Mitchan.

COUNTY . . .

A Tarnished Privilege . . .

Texas political candidates are heading down the final trail to a May Democratic primary this presidential year. Unlike hot July politicking of yore, 1960 hopefuls are ringing doorbells and striding the plow row in mild, spring weather.

Cameron's large vote in the city election and unusually heavy turnout in the school vote indicate that heavy primary voting is probable. This is despite the fact that fewer candidates are running than in any Milam primary in 20 years.

But a presidential year is always a heavier voting year through every level of government.

It is good that people take an interest in their presidential timber every four years. But that is infrequent considering the various elections held in any U. S. city.

To the discredit of these United States, a lot of those one-every-four-year voters take little or no interest in the intervening elections. They are so uninterested or find politics so distastful that they ignore one of the first responsibilities of citizenship.

Because this country is a republic and not a perfect democracy, elected officials are the success or failure of federal, state and local policy. We are too populous to meet in the old town hall like the Swiss or New Englanders and take direct votes and voice in public issues. Thus we vote for spokesmen who attempt to represent us, their constituents.

This is a difficult job. And it requires diligent, intelligent voting to get the representation that must lead a complex U. S. society.

Voters, like elected officials, should be aware of their contribution. Though one vote cast, say once or twice a year, seems insignificant, it joins the stream of other singular votes that spell out the program of government. Denied that privilege, we would see a fanatic quest for its replacement by every sometime voter in the nation.

It is a prized possession that goes tarnished for years, waiting to be shined when the presidential candidates start running. It should be polished more often.

NATION . . .

'Red - Hot' Line? . . .

Chou En-lai and Anastas Mikoyan, promulgators of the "Red-Hot" Communist line, took turns chopping at U. S. prestige again this week . . . to the point of monotony.

It is perhaps hardly worth the space wire reports devoted to the charges.

Says Chou: "A tense situation between the United States and Red China exists and the responsibility for that rests entirely with the United States."

Says Anastas: "I predict the Soviet Union will surpass the United States in industrial and consumer goods production by 1970."

En-lai's statement is typical of Red China's resentment at the U. S.'s stalemating them in 1958 in the Matsu Islands.

And Mikoyan, deputy Soviet premier, is renewing Russia's decade-old promise to crush the U. S. by economic growth.

True to his ilk, Mikoyan's statement constitutes an old "switcheroo." Soviet propaganda lines wave between total preparedness and peacetime pussyfooting. The tune this month is crush the U. S. with domestic Russian growth. Last year, Khrushchev promised to bury us in less peaceful competition.

Both men hold big clubs behind their backs. Their nations are powerful in population and resources, politics withstanding. That is common knowledge. But the status of their current effective development is not known.

All the typical shouting still must mean economic problems that gouge at their dictatorial plumes.

Would that we could stand by and watch the two Red behemoths joust with one another, it would be much more amusing.

Meanwhile, we are forced to take them most seriously, knowing the show will go on to the detriment of free men everywhere.

Tax Program To Be Studied Soon

By Vern Sanford

AUSTIN — A 30 member committee appointed by Gov. Price Daniel will meet May 16 to begin work on a tall task.

Assignment of the State Finance Advisory Committee will be to suggest every possible financial basis.

For the immediate future the tax program is to wipe out the general revenue fund deficit, which the governor estimates will be $40,000,000 at the end of this fiscal year, and provide $35,000,000 for teacher pay raises.

Committee is to be made up of leading citizens in both public and private life. Six already have been named. They are Secretary of Stat Zollie Steakley who will be chairman; Jess Irwin, the governor's budget director; Jon Ford, administrative assistant to the governor; Dr. John R. Stockton, director of the University of Texas Bureau of Business Research; John R. McKee of Dallas, Ford Motor Co. executive; and Hugo Lowern, Amarillo real estate man.

Gov. Daniel said he would ask the committee to search for revenue sources other than a general sales tax or state income tax.

He hopes, said the governor, that the committee will work out some recommendations soon so that a special session can be called this year to pass teacher pay raises. Under Texas requirement for pay - as - you - go financing, the Legislature would have to pass taxes to wipe out the deficit before it could vote funds for the school improvement program.

TEACHERS RAISE ENDORSED

Nearly three - fourths of the candidates for the Legislature this year have told the Texas State Teachers Association they favor pay raise for tachers.

Some qualified their statements to indicate that getting the pay raise might be an easier - said-than - done proposition.

Of 401 candiates for the Senate and House, 336 answered TSTA's questionnaire, and 293 said they approved the Hale-Aikin school program.

Asked if they would vote the necessary taxes for it, 252 promised support outright. Others added conditions on the kinds of taxes they would approve.

LOAN PLAN DISAPPROVED

Third Court of Civil Appeals has held the certificate plan used by some loan companies is unconstitutional.

Loan companies involved in the test case are expectd to appeal to the State Supreme Court.

Under the certificate plan, the borrower of $100 would agree to repay his loan through monthly payments on an investment certificate for $110. This, according to the Attorney General's Department, forces the borrower to pay more than the permitted 10 per cent interest because the interest does not drop as he pays off the principal.

Loan companies, which won the first round in district court, contend that the same procedure is used by banks, saving and loan associations and other lending institutions.

Attorney General's Department replied that there is no specific provision prohibiting other institutions from computing interest in this manner.

SCHOOL BUYING CRITICIZED

Clothing purchases at the Texas Blind, Deaf and Orphan School for Colored in Austin were far in excess of use during the past 18 months, State Auditor C. H. Cavness reported.

Cavness said his audit turned up excessive clothing purchases totaling $3,824. In all, he said, 3,042 articles of clothing were bought, but only 75 articles were issued to the children.

He said he had received no "reasonable explanation" for the discrepancy. Cavness suggested that the Texas Youth Council, which oversees state Schools for needy and handicapped children, make an inventory and transfer surplus items to other schools.

Poage Discusses 'Pork Barreling'

By Cong. W. R. Poage

Each year it is necessary for great groups of public - spirited citizens to come to Washington at their own expense to urge the Appropriations Subcommittee to include funds for their local Public Works Projects (in our country generally Flood Control.)

Too often we speak of the other fellow's projects as "Pork Barrel." Of course, there are bound to be a few unnecessary or extravagant projects over the United States, but surely most of them are highly desirable. Who in Waco would say that we do not need both Whitney Dam and the new Waco Reservoir? Who in Temple would say that the Belton Reservoir was a waste of money? Who in Milam County does not recognize the need for the control of the floods of the Little River? These are the types of projects which are called "Pork" if they are a long ways away.

This week we have especially large delegations from Central Texas. I think that our citizens who give of their time and money to come up here to help are to be commended. They did a good job. I hope it may succeed.

Each year there is an effort to give the people of the District of Columbia some form of local self-government and a vote in Federal elections. I have pointed out that Washington is the only large city without any bonded indebtedness and that the tax rate here is much lower than in most cities. I can't believe that if we were to turn local affairs over to the pressure groups which exert such a great influence here that the finances of the city would long remain in good shape.

There are many good reasons for not allowing the people who depend on the expenditures of the Federal Government for the very existance of their city to have a voice in controlling that government, but it is possible that some of these reasons are not as valid as they were at the time of the adoption of the Constitution. Let us, therefore, assume that the people of the District of Columbia make a good argument for the right to vote - regardless of what it will cost the city - does it not still follow that if they are to receive all the benefits of citizenship which are enjoyed by the citizens of the 50 States that they should accept all the burdens of citizenship? I have therefore, felt that before we should give the people of this District the vote that we should return them to the State of Maryland from which this part of the District came. The other part of the District was long since returned to Virginia.

Blood Program Is Important To US

In 1958 - 59, Central Texas Regional Blood Program drew 11,295 pints of blood.

Milam County had seven visits from the mobile blood bank for a total of 501 pints of blood donated. Rockdale donated 160 pints of blood. Alcoa-82, IGC-70 and Cameron 189.

The 501 count was 11 pints or 2 per cent over the Milam County quota.

Scouts To Attend July Jamboree In Colorado Springs

Boy Scouts interested in going to the jambroee in Colorado Springs, Colo., still have time to get their applications in.

Robert Hempe, Boy Scout director here pointed out that the jambroee draws a crowd of 54,000 boys, 15 miles of weiners, a half -million eggs and 600,000 quarts of milk is just an example of the food necessary to feed the boys. The food will be delivered to the camp everyday by a fleet of 50 trailer trucks.

The youngsters will camp on a prairie city north of Colorado Springs, Colo starting July 22 for the 50th Annual Boy Scout Jamboree.

Hempe said accomidations for the estimated 100,000 parents and other visitors are becoming scarce. The last Boy Scout Jambroee drew an approximately 30,000 visitors each day.

For further information, contact Felix Matula Jr. He will be in charge of one of the troops from this area of Cameron, Temple and Waco.

The *LITTLE RIVER Philosopher*

THIS WEEK:

The Value Of Looking At Clouds From Top Side Instead Of Bottomside

Dear editar:

I'm always in favor of progress, provided it doesn't disturb the way I'm living already, and consequently I was pleased to learn that the United States now has a weather viewing satellite circling the globe every 90 minutes, sending back pictures from 400 miles up.

A lot of professional weathermen are saying this will open up a new day in weather forecasting, but I read in a newspaper last night, along toward the bottom of an article about the new prospects, that one scientist said he had his doubts, that most weather is fairly local.

I don't know exactly what he means by this, but I do know that most people, including me, are a lot more interested in the weather immediately overhead and a few miles on all sides, than they are in the weather 1,000 miles away or 400 miles up. It's sort of like a scandal. The closer it is to your area, the more fascinating it is.

As I understand this new satellite, it photographs clouds from up above, looking down, and while this may have some meaning I can't grasp, I 'm not sure that looking at a cloud from the top down instead of from the bottom up will tell you whether or not it's going to give down any rain. At least I know that from a lifetime of studying them from the ground looking up, I haven't been able to tell any more about what they're going to do than a long-range forecaster. I've seen a day dawn bright and clear without a cloud in the sky, and before noon had a cloud - burst. On the other hand, I've seen it stay cloudy for a week without getting more than a mildewing mist.

I guess it's going to be interesting to have a photographic record of where the clouds are all over the world, but there'll never be a substitute for clouds overhead when you need a rain, and it doesn't take sattelite to tell me that, all I have to do is tilt my head and look up, and if I'm lying flat of my back out in the open, I don't even have to go to that trouble.

Yours faithfully,

J. A.

Jim Speer has been concentrating on picking up extra points in the coming district meet to be held here April 14th. In doing so he's come up with Kenneth Marek, 164 pound senior broad jumper.

Speer plans to use him sparingly and reported that he is capable of a 20 foot leap.

Steve Malone, Speer's high point man from a couple of weeks ago is steadily improving on his 5-8 high jumping mark that won him first place in the Cameron relays.

Last week he cleared the 6-foot mark and doesn't appear to have reached his top mark as yet.

Let us remind you once more that Malone is only a sophomore and that 6-feet is an acceptable college jump. Last year he won the event with a 5-10.

Herbert Marek, 58 graduate from Yoe High School was pictured on the front page of The Jolly Rogers Log, Blinn College's school paper.

A member of the track team, Marek placed second in an event at a meet attended by the school. This is his first year there and previously attended Arlington State.

"Perfect", that was the adjective used by Jim Speer last week in describing Steve Malone as he finished a run of high hurdles in his 45 - minute PE period.

Malone came back up the cinders, tightened down his starting block and again took his position, ready to go on the word of Speer. He once more cleared all the hurdles just by the seat of his pants and was ready to demonstrate his talents at the high jump.

His first leap cleared the 5 - 4 mark by 6 inches. As the pole was raised another two inches he started having trouble with his form. This could have been caused by the new clay paking in front of the jump instead of the loose sand there previously.

Eventually he got his spring back and was jumping a healthy 5-11 before the period was up.

Kenneth Marek then came upon the scene. He proceeded to broad jump a good 20 feet, everytime he tried. This is topping Malone's mark and should win district.

Yoemen Surprise Cameron Citizens With Meet Win

By Robert Mann

April 2 the Cameron Yoemen won a track meet. This came as an upset to most local sports fans and you can't blame them for being taken by surprise.

It was the second shock received by the sports world locally, week before last they finished third in a field of 20 schools at Cameron's Invitational meet.

This is one instance when the performance of one sports team doesn't blend with another The Yoe football team fell short on luck this year and came up with one win. The basketball squad was too young and inexperienced so just when did we find this track team possible, one of the best Cameron's ever seen.

The best boys on the team aren't experienced and they aren't old. A sophomore has come from a P. E. class to a reputation as one of the states top high school performers.

It's been said that the football team lacked a sparkplug and that Coach Jim Speer found a "track plug" in young Steve Malone.

This has got to be partially fact but we believe that Speer got something more than a sparkplyg. He went into the depths of high school and pulled out boys like Jimmy Weathers, Kenneth Marek, Malone and others. All are capable of being top athletes but haven't relaized their abilities before now.

We think that Speer linked together the natural athlete who's been over looked the past couple of years and the boy who has been on the gridiron and in every athletic event from the time he's been in high school.

Speer has composed a team, not just a small bunch of boys doing their best to win. He has boys that give it all they've got and they know their teammates are behind them.

It's good for a school to come up to the fact that their is more than one sport and if you fail in one or two all isn't lost.

The school year in the way of athletics has looked pretty bright despite a losing football and basketball team.

A variety of sports has hit the scene and the fan interest has turned and leveled off, and we think that track has left it's mark.

Next year it may be basketball or baseball, or who knows. We may repeat the 1947 - 48 school history and win district in everything.

CHAMPS AGAIN — The Cameron CYC boys repeated as volleyball champs of the Austin Diocese. The members of the team are, 1st row from left, Pat Dillon, Rev. Alfred Kallus, coach, Roy Wohleb. Second row from left, James Barta, Herman Mueck, Joe Vessles, Adrain Richter, Ernest Bayer and Charles Hollas.

Cameron Trapper Catches 43 Wolves In Four Months

The U. S. Fish and Wildlife Service, Department of Predator Control, has just completed a program of wolf trapping which began on December 1 and terminated March 31. During this period Clifford Morgan, the U. S. Fish and Wildlife trapper killed 43 wolves and one cat.

During this time he also participated in the rabise control program initiated by the Commissioners' Court with the cooperation of the State Department of Public Health and the U. S. Fish and Wildlife Service.

This program has apparently gotten the rabies problem well in hand. The only rabies cases recently being reported to us are those occurring along the county line of an adjoining county which had not instituted such a program.

To commenarate the national F HA Week, the eighth grade girls were invited to attend the meeting.

Cameron played host to the 18AA Interscholastic League tennis matches Saturday a year ago. Cameron placed in Senior Girls Doubles and Junior Girls Singles.

Belton took first place in singles, Junior Boys Doubles, and Junior Girls Doubles.

Rosebud had three firsts in Senior Boys Doubles, Senior Girls Doubles and Junior Girls Doubles.

Babe Ruth Leveague officials, led by Eldon Batte, president, surveyed a number of possible baseball sites the past week.

Yoe High football field will be replanted during the summer months and there will not be ample room for all participating youngsters. The Cameron downtown park is leaded out and will not be available.

If and when a new field is built it will be larger than the one at Yoe High School in field diminsions and seating capacity.

Cameron's independent baseball team, composed of men sponsored by Cameron's Merchants got their season unofficially underway by playing the Yoe High School team Saturday. The Yoe are coached by Jim Speer.

Paul Hoelscher, Yoe graduate of 1957 was named a probable starter at Victoria College by school officials. He plays tackle in the gridiron sport.

TEXAS LAWMEN

Federal Judge Duval West

"He serves best who serves twice"

Two kinds of lawmen have helped to build Texas — the peace officer and the judge. Duval West was both, and as both served his country well. Born in Austin, 1861, he graduated from the Texas Military Institute there in 1879. Like most young Texans of his day, he adventured for a couple of carefree cowboy years. Then duty — and his state — called. In 1886 West was appointed Chief Deputy Marshal, Western District of Texas. Those were the years, and that was the country where a lawman's life was not a restful one. Train robbers, fence cutters, cattle rustlers and just plain ornery skunks were as plentiful and active as fleas on a lazy hound. But Duval West did his full share to tranquilize the plains, then took time out to take a Bachelor of Laws degree at Tennessee's Cumberland University. After that — law practice in San Antonio, Asst. U. S. District Attorney there, Adjutant U. S. Volunteers, 1st Texas Cavalry, in the Spanish-American War, personal envoy of President Wilson to Mexico's revolutionary leaders in 1914. In 1916 he was appointed U. S. District Judge of the Western Texas District and served with distinction until shortly before his death in 1949 at 87 — a Texan whom Texans will always remember with pride.

Respected and honored, the Texas lawman today still safeguards our lives and liberty. And in this vigorous and freedom minded homeland, where "Beer Belongs," the United States Brewers Foundation works constantly, in conjunction with brewers, wholesalers and retailers, to assure the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of Texans, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials.

Cards Of Thanks

We wish to express our sincere and heartfelt thanks to all those who gave so willingly of their love and effort during the illness and death of our mother. Brother Frazier of the church of Christ, Brother Russell of First Baptist Doctor Richardson and Smith, and the staff at St. Edwards went beyond their call of duty to alleviate her pain and our grief.

We can never repay our friends for the comfort they have extended to us. May you all be as fortunate as we were when you need sympathy and compassion.

Family of Mrs. M. T. Houston.

Census Takers To Begin 'Mopping Up' Operation April 16

The 1960 Census of Population and Housing enters its final stage on April 16 when a picked group of interviewers begins a "Mopping up" operation to complete the ten - year inventory of the Nation's people and their homes.

The interviewers are primarily concerned with accounting for the "blue" household questionnaires which were left at every fourth household durig the first stage of the census which started on April 1. A small number of persons have failed to mail this report form to the Census Bureau's district office. Also some of the report forms which have been received have not been completely filled out.

The "clean up" interviewers will make personal visits to the households from which report forms have not been received and obtain the answers to the Census questions. They will also seek, by telephone and personal visits, the answers to questions left blank or incorrectly answered in the report forms already sent to the census office.

Farm Scene

County Agents Notes . . .

Budget Your Time And Your Money

By J. D. Meere, County Agent

Do you get paid $20 an hour or 20 cents an hour for your work on the farm or around your home? You can work like a horse, yet make only peanuts for wages. Its not how hard you work, its what you accomplished that counts. High output per hour makes for better.

Labor saving machinery can returns for your efforts.

help you make $20 an hour while you do what the machines can never do — think.

Authorities say these jobs will return $20 an hour, proper selections and ear notching gilts, once-over or a minimum number of operations in soil preparation, building good farrowing facilities, adjusting farm machinery properly and time spent watching cattle grazing on "lush" clover to prevent losses from bloat.

20 cents per hour jobs are these: looking for misplaced articles that should have been put in the right place to start with, cultivating crops just to be plowing, carrying water in a bucket, loading manure with a shovel and "Stomping ants in the basement while the kids are tearing the place apart upstairs."

An agricultural management service says that one of the best ways to budget your time is to carry a 5 cent note book so you can write down things to be done on the spot.

"The average person is always a little behind." After the jobs are listed, they can be divided into which can be done only at a certain time, and things that have to be done inside.

Before you invest your money in a specific item or crop, ask yourself what returns you can expect to get on the investment. An acre of oats properly fertilized may show better returns by grazing the crop with cattle if you already have the cattle and plans are made for summer pasture for additional gains. Purdue records show the first 40 lbs of nitrogen on corn returned $4.04 profit per $1.00 invested. The next 40 lbs returned $2.25 the next 40 lbs, $1.49.

"Cotton's Dynamic Sixties"

"Cotton's Dynamic Sixties" is the program theme for the 21st annual meeting of the American Cotton Congress at Texas A & M College on May 2-3.

Cameron 4-H'er Places Second In Seguin Show

The Annual Southern District Sears 4-H Swine Show was held Thursday April 7, at 10 a. m. in Seguin.

The show was attended by approximately 120 4-H clubbers and adults, representing 15 counties in the Southern District.

Representing Milam County at the show was 4-H club boys, Harmon W. Kelley of 902 N. Orchard St. Cameron, who placed second in boar competition, winning a red ribbon and $16.75 in prize money and Elza Ray Daniel of 805 W. Tyson St., Cameron who placed third in gilt competition, winning a white ribbon and $12 in prize money. The boar and gilt was of the Duroc breed.

Serving as judge for the show was Dr. T. D. Tanksley Jr. Extension Animal Husbandman, A & M College, College Station.

The 4-H club boys were accompanied to the show by W. S. Thompson, Negro County Agricultural Agent of Milam County.

Griffin Chapel Community Ends Improve Drive

The Griffin Chapel Community, currently enrolled in the Community Improvement Program, sponsored by the Electric Utility Companies operating in Texas in cooperation with the Texas Agricultural Extension Service, ends its Community Improvement Program for 1959 - 60.

As a result of the Improvement Program, the following accomplishments were attained: Cemetery cleanup, Community Center purchased, repaired and painted, all mail boxes pained and names placed thereon, signs erected on hi-way leading into community proper. Interior home repairs and improvements, home ground beautification, agricultural improved practices and roads graded.

The community held eight organization and planning meetings during 1959 - 60, with 205 adults, and 4-H clubbers attending.

A record book, which consists of individual family reports, news articles and pictures of the community activities and progress have been compiled and are due in the district office at Prairie View A & M College, April 18, for judging.

4-H Club Notes

By Robert W. Hoermann
Ass't. Count Agent

4-H members with Sears gilts should weigh the pigs at 56 days of age. Prize money is awarded to the heaviest litters in the District. The information is then sent to the state office where it is compiled.

The Sears pigs are of exceptional high quality and may be a source of breeding hogs, either male or female, for swine producers.

—

Carolyn and Gwendolyn Jistel, St. Anthony 4-H Club members, are doing a good job developing their Holstien heifers. The girls plan to show their heifers in the Rockdale Show, Saturday, April 23.

Martin Jistel, County Wide 4-H Club member, is fitting his Jersey heifer for the Rockdale Show. Martin raised his heifer, which is a calf out of his 1953 Houston Scramble cow.

Ronald Kostroun, Marek 4-H Club, is fitting his 1959 Houston Scramble Guernsey heifer for the show.

—

Twenty 4-H Club members planted Funk's Hybrid corn demonstration plots during the last two weeks. They will compare the production of the Funk's corn to that regularly planted on the farm. This is one way to tell which corn will be best to plant on the individual farm.

4-H members and adults are making plans to enter the Texas Hybrid Corn and Grain Sorghum Contest. Rembmer, only Texas Hubrids are eligible for the contest.

—

Most 4-H members and adults have started working on their Spring and early summer gardens. The following vegetables are being planted: beans, canteloupes, corn, cucumbers, okra, pepper plants, squash, tomatoes and watermelons.

For those needing help with gardening, the Extension Service has B-70 VEGETABLE GARDENING and L-255 TEXAS GUIDE FOR CONTROLLING INSECTS ON VEGETABLE CROPS. These may be picked up at the county agents office.

A paint brush probably figures in your Spring Clean Up plans, so keep these fire safety pointers in mind: 1) For paint removing and brush cleaning, solvents labelled "non-flammable" are safest. If you must work with flammable ones, better use them outdoors. Indoors be sure windows are open stoves, pilot lights and other ignition sources are off, and no smoking in the room.

2) Get rid of old paint and solvent containers and those with small left - over amounts. Store paints and solvents only in capped metal containers -- glass jars and bottles break easily, creating a definite fire hazard.

3) Safest practice with rags used to wipe up paint or solvents is to dispose of them immediately. If you must store them, use a metal contained with a tight cover.

Another fire safety tip is this: Whenever you are using gasoline, be sure to treat it with respect. Remember it gives off flammable vapors which need only a tiny flame or spark to turn into searing

So do all refueling outdoors fire or dangerous explosion. where the dangerous vapors can't accumulate. Keep away from all ignition sources, and observe a strict no smoking rules. Wipe up all spilled gasoline before starting the motor.

Finally, keep your gasoline in tight - closing metal can -- NEVER in a glass jug or bottle.

Annual Cotton School Set At A&M College

COLLEGE STATION — For the 51st consecutive year Texas A &M College will offer its special summer cotton school.

Purpose of the school is to provide training for persons who expect to enter the cotton trade; for growers who desire to learn more about cotton marketing and buyers who wish to review grade and staple standards or to becom more familiar with the elements of quality in cotton.

The 1960 school will be conducted by the Department of Agricultural Economics and Sociology during the six weeks between June 6 and July 15 with Professor J. M. Ward in charge.

Ward says instruction will be given on cotton grading, stapling, determination of cotton properties and trade procedures. Most of the time will be devoted to actual practice work and discussion. A few lectures by visiting specialists will cover various phases of production, marketing and processing of cotton.

Milam County Crop Report

By J. D. Moore, County Agent

During the latter part of the winter a farmer was asked how he felt. The farmer said, in his opinion he felt about right, because if he felt any worse he would have to go to bed and if he felt any better he would have to go to work. Such was not the case this week as excellent progress was made in planting and cultivating.

Most of the maize and corn is planted with good stands reported. Some spotted replanting had to be done this week due to heavy rains in several areas. Heaviest planting was reported in the river bottom in the Hanover community and in the Brazos river bottom where early planting was damaged by heavy rains last week.

Cotton planting made only moderate progress this week with plans for most cotton to be planted around the middle of April.

Three Local Persons Awarded Membership In Purebred Club

H. L. McClaren, Route 3, Cameron has become a member in the American Shorthorn Association, oldest purebred livestock organization in America.

Patricia Ann McClaren and Barbara McClaren, Rt. 3, Box 206, Cameron have been awarded a Junior Membership in the organization.

Purpose of these groups is to collect, verify and perserve pedigrees of Shorthorn and Polled Shorthorn beef cattle and to promote greater use of the breed.

—

Shorthorns led the purebred movement to America the first cargo landing at Virginia in 1783. The breed spread rapidly throughout the country eventually replacing the longhorn cattle on the Western ranges. The Polled, or naturally hornless, strain was developed after the Civil War. Shorthorns have received international recognition for improvements in today's beef animals.

Cotton School

The 51st annual summer cotton school will be held at Texas A&M College from June 6 to July 15.

Sesame Mixture Now Available

AUSTIN — A seed mixture of early and late maturing sesame has been prepared by the Texas Research Foundation for landowners and sportsmen to plant for feed and cover for dove and quail this fall and winter.

The mixture coming from the research farms at Renner, contains three varieties of semi and non-shattering sesame, which will begin releasing seed in September, according to Dr. C. L. Lundell, director of the Foundation.

"All three varieties are heavy producers, and a continuous supply of seed they provide will carry game birds through the dormant season in excellent condition for the spring mating season," he said.

The mixture now is being put up in 5 to 100 pound bags for distribution to landowners. The best planting date in North Texas is during May, according to Dr. Lundell.

Henry C. Gibbs At Workshop

Henry C. Gibbs of Hefley -Stedman Motor Company, Cameron, attended a five - day Ford Division truck sales workshop in Houston this week.

He is one of 22 Texas Ford dealership salesmen who took part in the comprehensive training program conducted April 4-8 by F. L. Carwile of Ford Division's Southwestern regional sales office in Dallas.

The workshop included classroom and field training on product features, financing, customer service and proper uses of trucks in all transportation situations.

Sessions were also devoted to improving sales techniques and management. Emphasis was placed on practical application of sound business fundamentals.

"Corn fertilized with ammonia made 90 bushels per acre!"

JOE MIKE BATTS OF NAVASOTA, TEXAS, reports

Phillips 66 Ammonia does more good than anything

"About 110 pounds of Phillips 66 Ammonia per acre was side dressed on 50 acres of corn while a 30 acre field received none. We figure the corn made 90 bushels where ammonia was used, and only 45 bushels where nitrogen wasn't used," Joe Mike Batts reports.

"There was really a big difference in the ears and stalks. I've never seen anything help corn so much. And you should have seen the 80 acres of Sudan grass where Phillips 66 Ammonia was applied. The cows just couldn't keep it down," he says.

Thousands of Texas farmers use Phillips 66 Ammonia to help assure top net profits per acre—in wet or dry years. Field reports prove that Phillips 66 Ammonia (1) produces more high grade lint (2) increases sorghum grain and corn yields (3) boosts wheat and small grain yields (4) stimulates pasture growth for more meat and milk.

See your local Phillips 66 Agricultural Ammonia Distributor for your supply now. You can make more money this year with this 82% nitrogen fertilizer. It can be applied by you or your distributor.
